GEOLOGY *Today*

INDEX, Volume 12, 1996

Aalenian 64
The Aberystwyth District, Geologists' Association Guide 49–50
Aberystwyth Grits 50
Abitibi Subprovince *58*, 58
Absaroka Range, Wyoming 15
abyssal hills, models for development of *176*, 176–7
Acanthaster (crown of thorns starfish) 231
accretionary lapilli *149*, 149
acmite 35
acquisitions 166–7
acritarchs 4, 148
adobe
  and bricks 189–90
  as a building material 189
  New Mexico 188
aegirine 35, 36
Agassiceras 11
agate 224, 228
aggregates 90
Aggregates Advisory Service 90–1
Aggtelek caves and Slovak karst region 47
agriculture, on loess 186
Ahluwalia, Arun, and the Gupta affair 84
aircraft hazard 137
Airy's Bridge Formation 150
Al Wabah volcanic explosion crater, Saudi Arabia 27–30
  age 30
  geology 28–9
  regional geology 28
Alaska, volcanoes of 124
Albany Mobile Belt 99
Aleutian Arc *124*
algae, marine 148
Allan Hills 84001 meteorite
  attributed to Mars 177–8
  and life on Mars 203–4
ALLEN, P.M., Lake District mapping (let.) 100
allogenic (def.) 107
alloys, of gold 157
alteration, propylitic 156
aluminium, or aluminum 43
amalgamation 156
Amber: Window to the Past exhibition 119–20
amber
  artefacts 119
  Baltic 118, 119
  Dominican 118, 119
  Lebanese 118
  Mexican 118
  preservation of gilled mushrooms in 59, *60*
Amber Room, Ekatarinsky Palace 119
amethyst 224, *225*, 227, 228
ammonites 11, *62*, 76, 213
amphibole 36
Amphioxus 19
ANDREWS, P.
  Geothermal news 169–70
  Recent ash, ancient wall 136–7
angiosperms 13–14
Anisian 24, 25
Annapurna Range 181, 182
Antarctica
  as core of Gondwanaland complex 215–16
  diatoms in the wind 175–6
  is research too expensive? 87
Anthenoides 230, 232
'anthropomorphic sculptures'/icons *128*, 129, *130*, 130
aquamarine 224, *225*, 228
Arabia–Africa split 27
Arabian Peninsula, more recent eruptions 28
Arabian Plate 31
Arabian Shield 27
Aral Sea, destruction of 187
araucarian assemblages 216
archaeocyathids 216
archaeology
  and the 20th century 45
  geology and geochemistry in 89–90
  non-destructive analysis in 89
Arenisca de Arén Formation, dinosaur egg bonanza 59
Arietites bucklandi Zone 11
Arnioceras 11
Arnioceras semicostatum Zone 11
arthropods, early colonizers 147–51
Arthur's Seat, and James Hutton 51–2
Asterias 231, 232
asterism 36
asteroids
  collision-generated, length:width ratio of 57–8
  danger to Earth from 165
  "Jerry Garcia" 45
  Vesta 4 178
asteroids (starfishes) *see* Starfishes (Fossils explained 18)
Astropecten 231
At Ta'if 27
Auden, W.H., the geologist's poet 38–40
augite 35, 36
  chemical substitution 36
aurichalcite 224
Australia 224
  correlations with Antarctica 215
  the oldest emergent crust 57
  unconformity beneath Parliament House, Canberra 126
Australia–Antarctica link 98
Australicythere 28, 216
Azores archipelago 68
azurite *225*, 226

badlands, North Dakota 217–23
  bentonite beds 219
  Cretaceous environment 218
  erosion rates 220–1
  formation of 219–20
  landforms 221–2
  palaeontology 218
Baldwin's Scientific Books 4
Balmuccia peridotite 18
Bangladesh, proto-loess 191
  basalt 52
  columnar 213
  hexagonal columns argument 114
  sculptural 157
basanite 28, 29
base surges 69, *70*, 149
base-surge deposits, Al Wabah crater 29, 30
basement
  East Anglia, investigation of 177
  Palaeozoic 177
  Proterozoic 28
basin inversion 106
bauxite 226
Beach Nourishment and Protection, NRC 85
beaches, to restore or not to restore 85
bedding-plane tubes, enlargement of 107
belemnites 196
bentonite beds, North Dakota badlands 219
beryls 224
Bevhalstia pebja 14
bird–dinosaur evolutionary relationship 205
Bison priscus 4
bivalves, rudist 48
Black Mountain Sandstone 126
Black Mountain Sandstone/Camp Hill Sandstone unconformity 126
black shales, Namurian, and radon 75
Blackbrook dam (let.) 62
BLAKE, D.B., Starfishes (Fossils explained 18) 230–5
Blisworth Clay 64, 133, 134
Blisworth Limestone 64, 133
  at Thornborough Bridge 134
blocks, downhill movement of (stone runs) 153
Blue John Cavern 103–4, 108, 109
BLUEMLE, J.P., North Dakota's Badlands 217–23
bluestones, capsized cargo off Milford Haven 43–4
Bog Bodies: New Discoveries and New Perspectives, R. C. Turner and R. G. Scaife 167
The Bog Man and the Archaeology of People 167
boltwoodite 224, *225*, 226
Books 116–18, 158–60, 197–200, 235–9
Borrowdale Volcanic Group
  subaerial volcanic setting *149*, 149–50
  trace fossils in 147–8
Borth Mudstones 50
Botswana, minerals on stamps 224
Boulder Bed, pre-Namurian 104, 106, 108, 109
bournonite 226
Brachiopods, P. Copper and J. Jin (eds.) 198–9
Brachisolaster moretonis 232
Branch line 38–40, 79–80, 118–20, 239–40
Brazil, minerals on stamps 224, *225*, 225
breccia, shock-generated 177
brickearth *see* loess
bricks, made from loess 189–90
Briefing 2–7, 42–5, 82–8, 122–7, 162–6, 202–6
BRIGGS, D.E.G. *see* JOHNSON, E.W., BRIGGS, D.E.G. and WRIGHT, J.L.
Bristol-to-Bath rail path 10–12
British Association, photographic collection at BGS Keyworth 116
British Geological Survey (BGS)
  1:50 000 Ambleside sheet reprint 180
  Discovering Geology: Fossil Focus, Belemnites and *Ostracods* 123
  field and miscellaneous photographs 116
  geological themes on small scales 171–3
  Holiday Geology Guides 53
  radon map of Great Britain 73–5
  refurbishment of London Information Office 125
  to go or not to go 12–13
  United Kingdom Minerals Yearbooks 90, 172

Abbreviations: def., definition; Ed(s), Editor(s); Let., letter; rev., review; Figures and Tables are given in italics; B after a page number refers to material in a box.

British Library, red brick and white limestone 47–8
Broadford coast 7
bronzite 35, 36
BRUCE, A., ammonite acquisition 166–7
Brule Formation 217
BUCKLEY, R. *see* PILCHER, R.
building, on loess 190
The Building Limestones of France, D. B. Honeybone 48–9
building stones, provenancing of 89
buildings, and radon 63, 66, 67
Bullion Creek Formation 218, 222
Bulverhythe, French rock to beat beach erosion 43
Bunger Hills 98, 99
Burgess Shales 19
burial, rapid, for starfish preservation 122–4

Cadell's 'squeeze box', photographic record of *115*, 115
Cader Idris 50
Callovian 194–5
Cambrian 46, 210
  palaeontology of South Shetland Archipelago 215–16
Cambro-Ordovician sequences, N Mayo 91
Camp Hill Sandstone 126
Camstone Quarry 52
Canada, Newfoundland and Labrador: Traveller's Guide 83–4
Cape Meredith Complex, cf. Cape Supergroup 215
Capelhinos: The disappearing volcano 68–72
  1957–8 eruption 68–9
  Concheiros volcano 71–2
  the deposits 69–71
  lava flow and associated dyke 71
  setting 68
carbonate, Carboniferous *33*
Carboniferous 91, 209, 234
  Coal Measures 106, 174–5
Carboniferous Limestone 101
  permeability and high radon levels 75
  "widened joints and rain-gullies", Hampsfell 95
Carcharodontosaurus saharicus 164
The Care and Conservation of Geological Material: Minerals, Rocks ... 138
The Care and Conservation of Palaeontological Material, C. Pellant 138
Caribbean Geology, S. K. Donovan and T. A. Jackson (eds.) 237–8
Carlsbad Caverns National Park 47
Carnegie Ridge *141*, 142
Carpenter, Frank Morton, human interest story 6–7
CARPENTER, S., Avon 200 million years ago 10–12
Carrara Marble 93
Cascadia Subduction Zone 2
casque or cassock? 127
cassiterite 226
Castleton caves, evolution of 101–9
  Blue John Cavern 103–4
  cave system today 108–9
  Peak Cavern 101–2
  Speedwell Cavern 103
  speleogenetic development and inception 106–8
  Treak Cliff Cavern 104
  the wild caves 104–6
Cave Dale lava 101
cave systems, vertical 105
caves
  deep phreatic 107
  effects of earthquakes in 205
CD-ROM column 20–1, 144–6
Cementstone Group 52
cenotes 59
Cerithium (*Campanile*) 135
Chadron Formation 217
chalcopyrite 155
Chalk 75
  bedrock 177
Chalky Boulder Clay 64
Chapelton Formation 135
chemical denudation 95
chemical equations, on stamps 227
Chesapeake Bay structure, breccia of 144
Cheshire, *Chirotherium* in 22, 23–4, 24–5
Chester Cathedral, sandstone floor, replacement dispute 42–3, 125
Chicxulub Crater
  drilling to find the K/T boundary 45
  size of 59
China
  loess in *186*, 186–7, 191, 192–3
  minerals on stamps 226
  Tangshan earthquake anniversary 165
  Wucheng loess section *192*
china clay 90
Chirotherium 22
  prints resembling pseudosuchian feet 22–3
  taxonomy in need of revision 26
Chirotherium barthi 22, 24
  two forms of 25, 26
Chirotherium herculis 23
Chirotherium kaupii 23
Chirotherium storetonense 23, *25*
  paired tracks 25
  published accounts 23–4
  two forms of 24–5, 26
chondrites
  carbonaceous 17
  Sweden 173
chordates, early mists clear? 19
chromite 226
cinnabar 226
cirques
  at head of Seti river 185
  landsliding, aiding glacial excavation 185
citrine 224, *225*, 227
clays
  glacial, radon protection 75
  radon risk small 67
cleavage 35, 36
The Cliffs of Saunton, Thematic Trails (No. 15) 2–3
climatic change, recorded in Chinese loess 192–3
clinker bands, Little Missouri Badlands 218, *222*, 222
clinopyroxene 35
CO_2, sudden release of 98
coal
  conditions for in South Wales 174–5
  preservation of iron meteorites in 173–4
Coal Measures 106, 174–5
Coalpithole Mine 105
Coast-to-Coast Walk, erosion of 203
Cockburn Island 28, 216
Coelodonta antiquitatis 4
COLE, P., DUNCAN, A. and GUEST, J., Capelhinos: The disappearing volcano 68–72
Colombia, minerals on stamps 226
colourings, of new small scale theme maps 171–3
comendite, felsic 28
comet/asteroid fragment, producing Davy crater chain 16
Community 2–4, 83–5, 122–5, 162–3, 205–6
The Complete T. Rex, J. R. Horner and D. Lessem 158
Concheiros volcano 71–2
concretions
  and badland formation 221
  Sentinel Butte Formation *221*
Confuciusornis sanctus, Jurassic bird 59–60, *60*
Congo, minerals on stamps 224
conodonts 19
conservation 90
  how not to look after your plesiosaur 138–9
  a victory 94–5
contact metamorphism 7
continental keels 2
Cook, Peter, an OBE 125
Coonterunah succession *57*, 57
copper
  native 226
  porphyry copper, gold as by-product 156
Coprinites dominicana 59
coprolites 196
Cornbrash 64
Cornwall's Geology and Scenery: An Introduction 209
corrections 45
Correspondence 60–2, 99–100, 179–80
Cox, Charles S. 124
Crag 177
crater chains 15–16
  on Earth? 139–40
'crater of elevation' theory 111
cratons, Precambrian 98
Cretaceous 195
  plate tectonic reconstruction 33
crinoid ossicles 239
crocodilians 218
Crocuta crocuta 4
crust-in-mantle 143
crust–mantle boundary section, loss of 18–19
crustal materials 92
cuprite *225*, 226
cyanidation 156

Dalradian Supergroup 91
Dashing Rocks section, Timaru, New Zealand 192
Davy crater chain (Moon) 15–16
De La Beche, Sir Henry Thomas
  a birthday party 135–6
  buried in Kensal Green 168
De Re Fossilicum 227
De Re Metallica 227
Dead Sea Fault 31
debris avalanches 15
Deccan flood basalts 98
Deer Creek Member, a debris avalanche 15
deer-stalking, and countryside access 9
deformation 93
  east-central Oman, post Maastrichian 33
Deltadromeus agilis 164
Denman Glacier 98
depositional environments, volcanic subaerial 148, *149*, 149–50
Derbyshire fossil limestone 240
deserts
  boulder transport on (let.) 179–80
  Libyan (let.) 179–80
desiccation cracks *149*, 149
Desmana moschata 4
Devon and Cornwall, radon concentrations 73
Devonaster 234
Devonian 91, 209
Dhaulagiri Range 181, 182
Diakah Basalt 28
diamond *225*, 226
diatoms, in the wind 175–6
Dinantian, uplift and erosion 106
Dinofest International 136
dinoflagellates 4
Dinosaur Eggs and Babies, K. Carpenter, K. F. Hirsch and J. R. Horner (eds.) 159
Dinosaur Hunters, D. E. Spalding 158
dinosaur ichnology 76
Dinosaur Provincial Park, Alberta 205
Dinosaur Systematics, K. Carpenter and P.J. Currie 159
dinosaur trace fossils, terms *76*
dinosaurs 164
  behaviour deduced from trackways 77–8
  books for all 158–60
  community structure 78
  computer-simulated crestal chamber sounds 125
  dino-egg probed 44
  dinosaur tracks 75–9
  disappearance of 60
  footprints an election issue 4
  further death/extinction hypotheses 87, 126
  Hell Creek beds 217
  marine nesting sites 59
  nest sites 17
  new, Brazil 140
  in Patagonia 7
  skin stroking 127
  T. Rex 'Sue' 122, 205
  University Museum, Oxford 170–1, *171*
  warm- or cold-blooded 42
  whimpering 165

Dinosaurs for Every Kid, J. VanCleave 159–60
Dinosaurs and the Expanding Earth, S. Hurrell 159
diopside 35
diopside–hedenbergite–augite group 36
dioptase *225*, 226
diorite, orbicular 129
Dirtlow Rake (mineral vein) 102
Discovering Edinburgh's volcano, Edinburgh Geological Society 52, 88
Diss Museum, Prehistoric animals from East Anglia exhibition 4
DNA, from organisms entrapped in amber 119
Dokolwayo kimberlite 143
Dokolwayo staurolite 143
DONOVAN, S.K., De La Beche: a birthday party 135–6
Dovey estuary 50
down-slope movement 151, 153–4
drainage, allogenic 108
Dubrovnik 47
Duddon Basin, trace fossils 150
DUNCAN, A. *see* COLE, P., DUNCAN, A. and GUEST, J.
Dunnerdale Formation 150
Durdle Door 53
Durness Limestone 7
dyke networks, Concheiros volcano 72
dykes, neptunean 106

Earth, S. van Rose 238
Earth sciences, and planning 84–5
Earth scientists, reaching the top 124
Earth, the
  about to enter interstellar dust and gas cloud 165
  bulk composition of 18
  chemical composition of 17
  collision dangers for 126–7
  hydrogen in the core 97
  journey through the centre of *128*, 128, 130, 132
  rotation of slowing 45
earthquake prediction, in Athens 44–5
earthquakes 82, 83, 165
  American, insurance cover for 5
  an earthquake theme park 165
  Chile 112
  damage and casualties, 'worst case' 82–3
  deep earthquake mystery 7
  effects of in caves 205
  Kobe earthquake experience *129*, 129, 130–1, 132
  and liquefaction of landfill/sediments 86, 178
  Mallett's interest in 111–12
  Naples 112
  overdue in New York 44, 86
